

## SECTION 2.0 QUALITY POLICY STATEMENT

The primary purpose of **GWC Italia** is to provide product and/or servicing that meets or exceeds our customer's needs and provide them with value. This philosophy will create gainful work for our employees and a profit for our shareholders. **GWC Italia** is dedicated to providing the best possible product and/or servicing to its customers by having competent and well-trained employees and the effective implementation of a **Quality Management System**.

It is the **POLICY** of **GWC Italia** to:

- Operate in a safe, consistent and economical manner, while minimizing waste through implementation of this quality management system.
- Maintain conformance to the quality management system, including all applicable industry codes, standards and/or specifications and customer-specified requirements.
- Maintain compliance to legal, statutory and regulatory and other specified requirements
- Prevent nonconformities at all stages of design and manufacturing by implementing the requirements of this manual and supporting procedures.
- Meet customer requirements and ensure customer satisfaction.
- Foster an environment of continual improvement.
- Communicate this Policy throughout the organization and ensure that it is understood
- Aggressively pursue the **Mitigation of Systemic Risk**.
- Monitor and periodically review the management system, including stated objectives, and this policy for suitability and effectiveness.
- Demonstrate conformity to the specified quality management system requirements.
